noon got him away side latter part the other boats came  
a boat in in the water

Mon 21 Morning getting up have commenced trying out  
have covered a boat to a barrel the Brig latter  
part Brig put her cable to it and anchor

Mon 22 Morning sent boats a working trying out, then 10 o'clock  
went but in when latter part commenced blowing strong  
boats made way to the eastward some of them they had  
to a westward channel the barward cable and on the anchor

Mon 23 Morning breaking out work, commenced the course  
boats commenced how up the water and working, and in the  
boats and going down yet, to make trying out

Mon 24 Morning got through trying out & lost our air down  
upping some the Brig Braggins came to an anchor Captain came  
around & dropping boards & landing up deck & heading out

Mon 25 Morning more up 15 gallons of water boats came  
around from Braggins after by a hand out in by  
put all hands washing & making out water

Mon 26 Morning starting up and washing of decks men  
got under way strong breeze from the west trying out  
last part sweeping barrels & taking away coals

Mon 27 Morning fine breeze made in the morning out in  
latter part in the morning fine breeze from the westward course  
in the morning out hands mended and mended

Mon 28 Morning fine breeze in the morning out in the morning  
in the morning strong breeze the ship flows  
in the morning and clock turned down under and to

Mon 29 Fine breeze from the southward morning  
in the morning weather clear at 10 o'clock  
the ship in the morning out in the morning

Jan 3 Morning light winds on the wind saw one low head going to  
ward towered for him no more man could come toward till part  
of the day out, kept a d part in the night part in

Jan 4 Morning light winds from the Northward on the wind saw a ship  
sailing and the ship out with part saw a ship with a small  
sail on her who I would not give any probability of being in
